

Horizontal Belt Filter (Extractor)

WEBINAR

Learn how to keep your process running efficiency through a better understanding of your horizontal belt filter.

The objectives of this webinar is to provide attendees with an understanding of the main components of the Horizontal Belt Filter (Extractor). The webinar will also provide attendees with an understanding of maintenance inspections required to properly maintain the equipment in order to minimize unscheduled shutdowns. Specific problems and solutions will be discussed. Time will be allotted for attendees ask questions about specific problems with their equipment

Topics discussed:

- HBF Components
- HBF Safety
- HBF General Maintenance
- Drainage belt tension and alignment
- Vacuum Pan Seal
- Wear belt inspection and replacement
- Receiver
- Vacuum Pump
- Troubleshooting Problems

DURATION: 60-90 minutes

REGISTRATION FEE: \$100
