

Kiln Maintenance and Inspection II

Gears, Pinions and Drives

WEBINAR

Learn how you can ensure the long life
and reliable performance of your kiln

In order to ensure a long life of the kiln's drive system, maintenance personnel must possess the proper know-how and understanding. Learn more about the design, operation, maintenance and inspection of girth gear/pinion systems and drive components, including failure modes and critical areas of concern

- Girth gear types
- Mounting systems
- Imperial and metric nomenclatures
- Axial and radial run-out
- Root clearance and backlash
- Involute wheel animation
- Running inspections
- Critical outage inspections
- Kiln drive components
- Gearbox inspection

DURATION: 75 minutes

REGISTRATION FEE: \$100
